

Rider Info
NATC/AMA Rounds 3 & 4
June 27/28, 2009
Trials Training Center, Sequatchie, TN

Gate Fee: \$10/day per adult
\$5/day kids under 12
Camping: \$22 dry camping
RV sites, Cabins are booked

The start time for the event will be 8:30AM CDT.
A split start will be used for support classes, with 2 riders starting per minute.
A portion of the loop is routed through the campground area, and riders MUST ride within the designated course boundaries during the event when on the loop.

The following supplemental rules apply to Pro class riders only.

1. Pro class riders will complete two loops of the basic course of 12 sections, with a time limit of 3hrs 30min to complete the first loop and 5hrs 30min for both loops.
2. Upon completion of the base course, the top 5 placed Pro riders by score qualify for the Shootout Final. The scores from the base course carry forward into the shootout.
3. The Shootout Final will consist of 4 additional sections, numbered S1 through S4. The Sunday Shootout Final will consist of the same 4 sections, but with modifications made after the completion of the Saturday Shootout Final.
4. The Shootout Final will begin at 3:30PM CDT. Riders must be prepared to ride when their turn is called by the Course Marshall, and shall begin their ride within 30 seconds of the signal to do so or the section clock will be started for that rider.
5. The riders in the shootout final ride the first section each in turn, starting with the 5th placed rider and ending with the 1st placed rider. After all five riders have completed the section, a second ride is completed with the riders performing in the same order.
6. Each subsequent section in the shootout final is completed in turn, with the riders starting in the inverse order of their position in the standing as of the start of that section.
7. The Pro riders will be allowed to inspect the sections used in the Shootout Final during a designated time after signup on the Friday afternoon preceding the trial.

The top 5 finishing positions in the Pro class are determined by the total score for the day, including the base course and the shootout sections. Positions 6 and down are determined by the scores from the base course sections only.
